Manufactured by Gamma-Wopla SA in various size and colors and marked with the specific logo 

In the conditions of use planned and in the state in which they are sold, are suitable for repeated use in contact with food substances.

The products are in accordance with the european guidelines 2016/1416/CE, 2011/10/CE, 2006/2023/CE ( GMP ) and 2004/1935/CE. The products are made using manufacturing processes and raw plastic materials in PP ( Polypropylene ), suitable, controlled and compliant with the current European regulations.

The products are also made of one layer of raw material.

Gamma-Wopla does not use listed dual-use additives in their production process.

By normal use, our products respect the limits of global migration ( maximum 10 mg/dm<sup>2</sup> ) in accordance with the European Regulation EC 2011/10 mentioned in article 18 and annex V chapter 2.

The conditions of the test of global migration are as followed : 10 days at temperature of 40° C in contact with the simulants A, B and D2. The ratio between exposed surface ( dm<sup>2</sup> ) and liquid volume of the simulant ( ml ) is 1.

Our products respect the global migration of 10 mg/dm<sup>2</sup> with simulants A, B en D2 and are therefore suitable for :

- ❖ All types of food substances
- ❖ Repeated contact and prolonged storage of food substances at room temperature or lower.
- ❖ Contact of maximum 2 hours when heating up to 70° C.
- ❖ Contact of maximum 15 minutes when heating up to 100° C.

Our products contains no chemical substances with restriction limits, that are listed in Annex I and II of 2011/10/CE and its amendements 2016/1416/CE.

Regulations 2008/60/CE , 95/45/CE and 2008/84/CE concerning the use and restriction of chemical substances in foodstuffs are not relevant for our products.

The end user of the products buyed at Gamma-Wopla SA, have his own responsaibility to examine himself all exceptions , who are common to the properties and the storage of their food substances.

This declaration is effective as of the date specified below and will be replaced by substantial changes of the process en by update of the actual European regulations. In those cases a new declaration will be formulated and supplied for the referring products.

Sincerely yours

Moeskroen (B) , 01/01/2018

Fritz Verspeelt
